Question 1: Choose the correct answer

1- Fred Hiebert is an …………. and explorer in national geographic

a) Engineer   b) architect   c) archeologist

2-Fred Hiebert uses …………. To write reports about archeological sites

a) MS Word   b) MS Excel   c) MS PowerPoint

3-Printed letters and emails are used to communicate in a ……… way

a) Formal   b) informal   c) Normal

4-A school computer lab is an example of ……….

a) Open network   b) Closed network   c) The internet

5-Braille method allows blind people to

a) Write   b) Read   c) Speak

6-To store and share information, we can use

a) Scanner   b) Printer   c) Flash memory

7-the …………. is used to share information in a closed and private network

a) Letters   b) Internet   c) Intranet

8-when creating a formula, use the ……… sign for subtraction

a)   +   b) –   c)   =

9-…………… folders help us to manage files using technology

a) Creating   b) Deleting   c) Copying

10-…………. is faster than hard disk and can store files

a) External hard drive   b) Flash memory   c) Router

11-the router is considered ……….

a) Famous browser   b) Antivirus   c) A gate way for the internet

12-is advising or training someone on a subject you have a lot of experience in

a) Communication   b) Mentoring   c) Learning

13-…………. Is a device that connects the computer to the internet via

 Wi-Fi

a) Ethernet cable   b) Router   c) Ethernet port

14-Typing ………. In the cell, tell the excel that you are creating a formula

a) +   b)–   c) =

15-…………. Is a part of internet network made up of webpages that people can navigate

a) Video chat   b) Search engine   c) World wide web

16-Mr Hiebert prefers …………. To communicate with other

a) virtual meetings   b) tv programs   c) face to face meetings

17-to write the word Lion, you need ………. To represent it in a computer system

a)4 bits   b)4 bytes   c)5 bytes

18-the ………… is private to only those who are part of organization

a) Internet   b) Intranet   c) LAN

19-Mr Hiebert holds ……………. using zoom and WhatsApp

a) Virtual meetings   b) Face to face meetings   c) Tv programs

20-if you want to sum the values in column A, B and C from row 4, the formula is ……….

a) C4+b4+a4   b) C4-b4-a4   c) A4+b4+c5

21-check the software update when……….

a) There is not internet connection

b) Downloading a file is very slow

c)The computer slows down when opening an app

22-……………is a networking technology that connects wireless mobile devices

a) Bluetooth   b) Ethernet cable   c) Router

23-Mr Hiebert uses MS Excel to prepare

a) Reports   b) Presentations   c) Graphs

24-…………. Measure the number of cycles your CPU carries out per second

a) Gigahertz   b) Mbps   c) Byte

25-when the browser is running slow, you have to

a) delete unwanted apps

b) check WIFI signal

c)restart your router

26-you can contact the ISP for help when …………

a) internet connection is interrupted

b) the browser is running slow

c)an app does not open

27-………… helps us to access information by scanning it with a phone camera

a) Browser   b) QR Code   c) Digital book

28-…………. Used to save images on computer and use them later

a) Scanner   b) Printer   c) Router

29- Try a new ethernet cable when …….

a) There is no internet connection

b) Downloading files is very slow

c)The computer slows down when opening an app

30-Mr Hiebert used …………….. to share his discoveries with his colleagues

a) MS Excel

b) MS Word

c)Video Conference

31-………… consists of one computer connected to a printer or a router

a) Internet   b) Intranet   c) LAN

32-…………. is the smallest unit of data on your computer

a) Mbps   b) Byte   c) Bit

33-………….. consist of devices linked to the internet via Wi-Fi

a) CPU   b) IOT   c) DSL

34-you can use ………….. application to buy anything on the internet

a) Browser   b) Brille   c) E-commerce

35-…………… is available for free to all Egyptians registered on the site

a) EKB   b) Google chrome   c) Wikipedia

36-Students who need further explanation of a lesson can use

a) Libraries   b) Printed books   c) YouTube channels

37- the first step to solve any problem in the computer is to ………… it

a) Identify   b) Plan   c) Leave

38-………… is a cable that transmit sound and images to and from devices

a) Ethernet cable   b) HDMI   c) Router cable

39- when the computer slows down when opening an app, ……….

   a) Check Wi-Fi signal
   b) Check software updates
   c) Restart your router
   d) Contact customer service

40- ……………….. helps to manage files

   a) Scanner   b) flash memory   c) Folder   d) Excel

41- you must ……………….. the information you find

   a) Sell   b) analyze   c) buy

42- the internet is .... network

  a) Open   b) closed   c) private   d) none of them

43- when creating a formula, use the .... sign for subtraction

    a) +

    b) –

    c) =

44- Typing .... In the cell, tell the excel that you are creating a formula

  a) +

  b) –

  c) =

45- if you want to sum the values in column A, B and C from row 4, the formula is ....

  a) C4+b4+a4

  b) C4-b4-a4

  c) A4+b4+c5

46- ....is an ecologist and photographer,

  A) Albert Lin

  B) Fred Hiebert

  C) Jeff Kerby

47-   …………your devices regularly keep your data safe.

A) Uploading

B) Updating

C) Restarting

48-   if a website asks you to enter much personal Information, you should

A) enters all your data

B) enters trusted data only

C) avoids using this website

49-   …………. websites offer you a prize that you never get.

A) Online shopping sites

B) Scareware websites

C) Sweepstakes

50-Sometimes, the photographer uses his………… to take quick pictures.

A) Computer

B) mobile phone

GPS

50-   When you want to use an image, you must mention the……………..
of the photographer

a) name

b) address

c) number

51-…………..is considered a strong password.

a. Adam123   b.abcd123   c. RT#8gb*1

52-To protect your image, share them with ………...

a) Low resolution

b) High resolution

c) Normal resolution

d) Flash memory

53-Passwords must be……...... for each website you register on

a) different

b) weak

c) similar

54-If Jeff Kerby needs to share photos with his colleagues immediately,

he uses………..

a) cell phone applications

b) camera and drones

c)social media sites

55-………………..is sending a fake message via e-mail or social media

applications that look real.

a) phishing

b) Anti-viruses

c) Search engines

56-You can move to different places using ....

a) hard drives

b) GPS

c) laptops

57-…………. use the internet to break into your computer to steal your

information.

A) Programmers

b) Hackers

c) Thieves

58- Phishing messages can be identified by containing…………

a) trusted information

 b) spelling errors

c) accurate information

 59-Photographers should share their high-resolution photos with

a) people they know

b) people they trust

 c) all people

60……………. information includes your name, address, and your passwords.

a) Internet

b) Public

c) Personal

61-Smishing is the same thing as phishing, but it is sent by………..

a) e-mails

b) text messages

c) social media sites

62-Passwords can be strengthened by

a) multi-factor authentication

b) anti-virus software

c) web browsers

63-Using photographs that were taken by others without asking permission is…………………..

a) owning images

b) copyright infringement

c) back-up copies

64- ……………… law protects print and digital content

a) Copyright

b) Hacker

c) Work

65- A photographer protects his work by not sharing images with ………………….

a) High resolution

b) Text

c) Low resolution

d) Message

66- you can keep your files from viruses or loss by making ....

a) Backup

b) Off device

c) Personal information

d) None of them

67- we can back up our important files using...............

a) GPS

b) External hard drives

c) Password

d) All of the above

68- .... means make another copy of your work to keep it safe

a) Copyrights

b) Back up

c) Save

d) PII

69- Back up copies of files are created on ....

a) Flash memory

b) External hard disk

c) Both a and b

d) GPS

70- Hackers can get your password by a .... way

a) Updating

b) Phishing

c) Planning

d) Chatting

71- .... means you provide at least two ways of identifying yourself

A) MFA

B) Password

C) Email

D) PIN

72- Networks used to share information and less secure is ....

a) Network

b) Internet

c) Intranet

73- You have to show your respect for the author's work by.............
His text.

a) deleting
b) copying
c) paraphrasing

74- The Uniform Resource Locator (URL) begins with the ………..

a) resource name
b) protocol
c) file path

75- Creative works enter the public domain

a) when you download it
b) when the creator dies
c) after 50 years of the creator's death.

76-Passwords must be for each website you register on

a) different
b) weak
c) similar

77-When you use the…………… operator, the results will include one of the two words.

a) AND
b) OR
c) NOT

78-You can use…………. to write the author's important sayings.

a) notes
b) talks
c) Quotes

79-Use ……………in the search engine to make your search more

accurate.

a) the same
b) different
c) synonyms

80-When you………… statement, you must specify its source and the reason for using it.

a) copy
b) quote
c) write

81-To search for an online resource keyword, press   -

a) Alt + Ctrl + Del
b) CTRL + F
c) CTRL+G

82-to move directly to the site you have to ………….

a) Click on the hyperlink
b) Create an email
c) Create a document

83- when using the ………. operator, the results will include the exact terms

a) AND
b) " "
c) OR

84-The …………….. cannot be debated and are true for everyone

a) Facts
b) Opinions
c) Digital sources

85- the Egyptian knowledge bank is a ……………….. source

a) False
b) Reliable
c) Unreliable

86-copy right protects all the following except..............

a) Books
b) Websites
c) Discoveries

87- when a creator gives permission to reuse his work, this is called
....

a) Discoveries
b) Facts
c) Creative common reuse license

Question 2: Put true or false

1- Mr. Hiebert is an explorer at National Geographic. (   )
2- Braille makes it more difficult to read for people of determination (   )
3- The data in the cell cannot be arranged alphabetically ()
4- Identifying the problem is the last step in solving computer problems. (   )
5- You must decide to share information using the intranet or internet. ( )
6- Decide keywords for searching about subtopics ()
7- Technological tools help us to manage digital files. ( )
8- Humans and organizations communicate every day using computer networks. ( )
9- The intranet is used to share information in an open network. ( )
10- HDMI is a wire that connects a computer or laptop with the router. ( )
11- We can turn on and off home appliances connected to the internet from a distance ()
12- Breaking the topic down into smaller subtopics helps you in conducting research. ( )

Mr Brain Academy   01069752133

13- We can use the digital camera to transfer and share files. ( )
14- You can add the main folder inside sub-folders to manage files. ( )
15- Ethernet is more stable and faster than Wi-Fi. ( )
16- Always ask permission from your parents before buying anything online. ( )
17- To create a simple formula, we select the cell and then type a (*) sign to let Excel know that we want to create a formula. ( )
18- The internet is a private network that Is restricted to some people. ( )
19- QR code is used to get information quickly and easily. ( )
20- LAN is a network that connects computers from all over the world. ( )
21- Megabits per second (Mbps) are used to measure the network speed. ( )
22- Mr Heibert uses GPR to design a presentation for his discoveries ()
23- To connect a computer to the internet, you must use a gateway ( )
24- The internet is more secure and private than the intranet ( )
25- You can add or subtract any data using Microsoft excel. ( )
26- It is not a good idea to use full sentences when searching ( )
27- The rows are labeled with numbers, while the columns are labeled with letters in Excel. ( )
28- You can enter files inside folders ()
29- To create a new folder click rename ()
30- The more cycles that CPU performs, the faster data can be processed ( )
31- Bluetooth is a networking technology that connects mobile devices over a short range ( )
32- Password management software is used to create strong passwords ( )

Mr Brain Academy   01069752133

33- Password managers create a unique password ( )
34- One type of phishing is receiving a message telling you that you won an award ( )
35- Strong passwords contain letters and numbers only ( )
36- We don't need a strong password to protect our personal data ( )
37- Hybrid backup is a safer way to back up and store files (   )
38- An antivirus helps you keep your personal data safe (   )
39- When you are asked for credit card details to pay for shipping online you should provide them ( )
40- You should not sign up to a website that asks for a lot of personal information ( )
41- Anti-virus software is ineffective to protect its owner from dangers of the internet ( )
42- Some apps and software programs can back up data automatically ( )
43- Jeff Kerby is a dentist ( )
44- Copy right law does not protect print and digital content ( )
45- Owning photos is having the legal right to publish the photo ( )
46- It is more difficult to hack your account if you have a strong password (   )
47- Jeff Kerby ensures that his work is protected by sharing high quality photos (   )
48- Photographers can protect their work from copy right infringement by placing a water mark on their photos (   )
49- Jeff Kerby is an archaeologist and a mentor. (   )
50- Phishing is one of the ways that hackers use to get your password. (   )
51- To sort the information in alphabetical order by excel, go to the toolbar then click on data them click on sort ( )
52- Scareware websites offer you a prize that you never get. (   )

53- Phishing is a text message that looks real, but isn't   (   )
54- We must try to limit the personal information we share online. ( )
55- Phishing messages cannot be recognized. (   )
56- Sweepstakes never sends you the correct items you bought. ( )
57- Strong passwords must contain letters, numbers, and special signs. ( )
58- Data-stealing software may ask you to enter your bank account details. ( )
59- Hackers can send a virus to all the e-mail addresses in your e-mail account.   (   )
60- Websites that ask for too much personal information are safe. ( )
61- People can use photographs without asking permission from their owners.   (   )
62- Anti-virus can tell you if one of your passwords has been stolen online. (   )
63- The flash memory is preferred to store large files than the external hard drive. (   )
64- Both hard disks and flash memory are used for the same purpose ( )
65- Phishing means providing at least two ways of identifying yourself. ( )
66- Boolean operators include THE-AND-OR (   )
67- To get specific search results start with a specific topic and research questions (   )
68- Opinions are based on someone's views and experience and can be proved (   )
69- Discoveries are not covered by copyrights (   )
70- Scam websites cannot access my device (   )
71- The international symbol for public domain is ©.   (   )

72- You can ask your teacher for help while browsing a site for the first time. (   )

73- Egyptian Knowledge Bank Is a reliable source. (   )

74- If you type NOT, the results will include both words. (   )

75- You should paraphrase the author's writing in your own style. (   )

76- To avoid scam websites, you should check your Uniform Resource Locator (URL). (   )

77- Photos and videos are from reliable sources. (   )

78- When you search for images online, you can filter your results to show those with a public domain license.   (   )

79- Copyright law protects both printed and digital content. (   )

80- You must add the URL and the author's name at the end of your writing. (   )

81- We can use public domain sources without asking the owner's permission. (   )

82- Facts can be debated and proven, and they come from a research. (   )

83- Synonyms make your search terms more accurate. (   )

84- Creative works become public domain when the creator dies immediately.   )

85- Using the factor OR makes results include all forms of the word. (   )

86- Use quotation marks to add the Important author's words.   (   )

87- When using any source, make sure that the information is based on opinions. (   )

88- Egyptian laws protect the copyrights of people.   (   )

Question 3: Complete the following sentences (for advanced students)

1- To create a folder, we right click then choose …………… then …………..
2- To give a folder a new name we right click then …………………
3- To look for needed information we should use ……………… engines
4- …………………….is a program used to write reports.
5- …………………is a program used to create spreadsheets.
6- …………………..is an archaeologist and explorer
7- Dr. Hiebert held virtual meetings using platforms like……………and…………
8- ……………… is a program used to prepare presentations.
9- Dr. Hiebert uses……….and…………when he wants to communicate more formally.
10- ………………… and ………………… are from computer accessories
11- ……………………….is a cable that connects a computer or laptop to a router
12- …………………….is a cable that transmits audio and video from/to devices.
13- …………….is a device that connects a computer to the internet via Wi-Fi or ethernet.
14- ……………, …………… and………… are some of the computer's units of measurement.
15- …………is a network that connects computers, and the people using them, from all around the world.
16- ………….is a private type of network, restricted to only those that are part of the business, school, or organization that it is connecting.

a) Ethernet cable   b) HDMI   c) Router cable

39- when the computer slows down when opening an app, ……….

a) Check Wi-Fi signal
b) Check software updates
c) Restart your router
d) Contact customer service

40- ……………... helps to manage files

a) Scanner   b) flash memory   c) Folder   d) Excel

41- you must ……………... the information you find

a) Sell   b) analyze   c) buy

42- the internet is .... network

a) **Open**   b) closed   c) private   d) none of them

43- when creating a formula, use the .... sign for subtraction

a) +

b) **–**

c) =

44- Typing .... In the cell, tell the excel that you are creating a formula

a) +

b) –

c) **=**

45- if you want to sum the values in column A, B and C from row 4, the formula is ....

a) **C4+b4+a4**

b) C4-b4-a4

c) A4+b4+c5

46- ....is an ecologist and photographer,

A) Albert Lin

B) Fred Hiebert

C) **Jeff Kerby**

47- ....your devices regularly keep your data safe.

A) Uploading

B) Updating

C) Restarting

48- if a website asks you to enter much personal Information, you should

A) enters all your data

B) enters trusted data only

C) avoids using this website

49- .... websites offer you a prize that you never get.

A) Online shopping sites

B) Scareware websites

C) Sweepstakes

50-Sometimes, the photographer uses his............ to take quick pictures.

A) Computer

B) mobile phone

C) GPS

50- When you want to use an image, you must mention the................. of the photographer
